

VINCENT'S POOL HALL

CONCEPT STATEMENT & FOUNDER BIO

CONCEPT STATEMENT

There is a certain kind of place that exists outside of ordinary time. Where the light falls on the table and nowhere else. Where time moves differently and the outside world recedes. Where strangers become regulars and regulars become something like family. That place used to exist in every American downtown.

Vincent's Pool Hall is being built to be that place for Manhattan, Kansas. A classic American pool hall, bar, and grill where the game is taken seriously and the hospitality is taken even more so. Where a player's glass is never empty and a regular never has to introduce themselves twice.

Located at 304 Poyntz Avenue in the heart of downtown Manhattan, Vincent's will offer both tournament-sized and smaller bar-sized tables for both the serious and casual player. Everyone is welcome at Vincent's no matter their skill level. Every detail from billiard rooms to the bar program is carefully considered. The atmosphere draws from the tradition of great American pool halls: dark wood, warm light, the crack of a break, and the low hum of a room that knows how to settle in.

Vincent's is not a sports bar with pool tables. It is a pool hall that happens to serve great drinks and honest food. The distinction matters. This is a place for players, for regulars, for anyone who needs somewhere to land on a Tuesday night. Manhattan's third place — not home, not work, but somewhere you belong.

FOUNDER BIO

Dan Morgan is the founder of Vincent's Pool Hall LLC. A lifelong Kansan and K-State alum with deep roots in the state's communities and culture, Morgan has spent more than a decade building brands, designing experiences, and developing products that put people at the center.

The vision for Vincent's grew from a simple belief: that Manhattan deserves a gathering place built on genuine hospitality — one where the quality of the welcome matters as much as the quality of the pour. Influenced by the principles of enlightened hospitality and the enduring appeal of the classic American pool hall, Morgan is developing Vincent's to be a venue that serves the whole community — students, faculty, locals, and visitors alike.

Vincent's Pool Hall is slated to open in 2027 at 304 Poyntz Avenue in Downtown Manhattan, Kansas.
